

AutoPowerShell - Bug # 6: Launcher blinks when category is changed

Status:	In Progress	Priority:	3 - Medium
Author:	David Warburton	Category:	Bugs
Created:	07/08/2009	Assigned to:	David Warburton
Updated:	07/21/2009	Due date:	08/24/2009
Subject:	Launcher blinks when category is changed		
Description:	Because of the way the button launcher window refreshes itself, the window blinks sometimes when the category is changed. Also, sometimes you can see the buttons growing back one by one if the system is slow or under load.
